

The Math 201-212-213 sequence utilizes the FREE online homework system WeBWorK where you can find a link to your section's site. Your instructor should also provide you with a direct link to it.

The login name is the same as your CCNY email ID typed in all LOWERCASE letters (it is case sensitive and should NOT include the @... part). For example, my email is nshell@ccny.cuny.edu, so my WeBWorK name is nshell. The password is the same as your CCNY email password.

NOTE: despite appearances to the contrary, you cannot change your userid or password on the WeBWorK system because it resides on a college VM. Since your email password must be reset every 180 days, inability to login to WeBWorK is often linked to that issue. If you change your password on CCNY's site via reset then it will automatically change on WeBWorK. Though MFA is NOT required to login to WeBWorK, if you change the phone used for MFA and do not register the change, you may be unable to access your email and hence WeBWorK.
